Dear Mr. Morin,

Re: Request by CTV Limited to the CRTC to increase the quality of the signal for the population served by CKQM-FM Peterborough – Broadcasting Notice of Consultation 2010-539 – Application No. 2010-0982-9

I am writing to you in support of the application by CTV Limited (licensee of Country 105) to express my support for the CKQM-FM Country 105 to increase its transmitter power to better serve its listeners in Peterborough and surrounding areas as per Application No. 2010-0982-9

I am an avid listener of Country 105 and have trouble listening to it all the way to work and back on my daily commute. The station comes in and out a few times during each drive and it is rather bothersome. The day just doesn't start right for me unless I can relax to the great programming set out by Country 105!

For the reasons noted above, we ask the Commission to approve this application as it will allow Country 105 to better serve its listeners.

Thank you for the opportunity to provide these comments.

Yours truly,

Doug Faragher
