Re: **Hudson/St-Lazare, Quebec**
Application 2010-0216-2

I am a citizen of Hudson, Québec, and am thrilled to learn that there is an application for a radio station that will serve our area. For years I have listened to CFQR (92.5fm). However, they recently changed their format and I have been looking for – but not finding – an English language radio station with the type of music I like to listen to.

In the past, I helped start the Hudson Area Business Association and over the years, I have helped organize many events (street fairs, fundraisers, garden club events, etc.) in Hudson. I feel that a radio station in our area that will be promoting the day-to-day activities of our community and surrounding area will be a much needed boost to both local businesses and local clubs and organizations.

I anxiously await the approval of this application.

Sincerely,

Kathleen Conway (Ms.)
