RE: Telecom Notice of Consultation CRTC 2013-551  
Review of wholesale services and associated policies  
File number: 8663-C12-201313601

Mr Traversy,

Please find enclosed Vaxination Informatique's submission in the 2013-551 process which was due on January 31st. With this submission, I ask to be made an intervenor in the file and am willing to appear at the fall hearing.

Unfortunately, due to unplanned and rather vicious flue which started at the worse possible moment and lasted much longer than usual, I was unable to catch up with work and in particular this submission until now.

I have not had the time nor energy to read any of the other submissions in this file, so I have not had any benefits from filing after the deadline. And as the next deadline is not until March, other intervenors should still have plenty of time to digest my submission without the need to change the schedule.

As a result, I kindly beg that the Commission use the powers given to it in Section 50 of the Telecommunications Act to accept my submission beyond the original deadline or at the very least grant me intervenor status so that I may participate in the remainder of the process.

Regards,  
Jean-François Mezei
